INFERNO II

THE COLLECTION

# ONE ICON. TEN UNITS.

The G 700 Inferno II is based on the top-of-the-line AMG model of the G-Class, Mercedes' legendary classic off-road vehicle. Thanks to numerous high-quality upgrades, these ten vehicles are exclusive, high-performance off-roaders that are truly one of a kind.

UNIT 02 OF 10

# THE REAR VIEW.

The AMG G 63's straight-lined and angular rear end appears even more striking and dynamic on the G 700 Inferno II thanks to the new rear bumper with its subtle diffuser. The spare-tire cover, which is also wrapped in the car's paint color, further enhances this effect.

**DRIVETRAIN & PERFORMANCE**

# 700 HP. 980 NM.

The iconic 5.5-litre twin-turbo V8 in this high-performance off-roader delivers a whopping 700 hp and 980 Nm in the G 700 Inferno II. This is thanks to modifications to the turbochargers combined with optimized engine software. Also impressive: the downpipes with 300-cell catalytic converters and the exhaust system with remote-controlled valves.

**WHEELS & EXTERIOR**

# FORM FOLLOWS CHARACTER.

The MANHART body kit—featuring widened fenders, front and rear skirts, and a hood with a double power dome and air vents—gives the G 700 Inferno II an even more muscular and dominant appearance. Rounding out the look are 23-inch Concave One forged wheels with 285/35 and 325/30 tires.

# THE INFERNO SIGNATURE.

Since the black rims, roof, and various add-on parts stand out against the blue body, the G 700 Inferno II model 02/10, with its striking two-tone design, has a unique and unmistakable style all its own.

## MIDNIGHT BLUE 02 / 10

**MATTE METALLIC MIDNIGHT BLUE WRAP**

**INTERIOR ATELIER**

# LUXURY IS IN THE DETAILS.

Naturally, the interior has been meticulously finished to match the exterior. Black leather is combined with high-quality blue Alcantara, which is featured on the center panels of the seats, the armrest, the steering wheel, and the door panels.

CRAFTSMANSHIP & COMFORT

# CONTRAST WITH CONVICTION.

Subtle interior accents demonstrate a keen eye for detail: The Alcantara features double decorative stitching in a diamond pattern, placed with millimeter precision. In addition, the seatbacks feature embroidered MANHART lettering, and an upgraded monitor in the cockpit and rear seats ensures a modern infotainment experience.

# TECHNICAL SPECIFICATION

## 01 ENGINE & PERFORMANCE
